amendoeira

## Sustainable Health

Here at Amendoeira, we believe that healthy cuisine can and should be both delicious and nutritious. Hence, the recipes on this menu are elaborated with fresh and wholegrain ingredients, with high nutritional value. Our focus is in organic products, directly from our vegetable garden to your table, or locally sourced from farmers around the area.

The dining experience we wish to provide you is also intimately linked to the quest for minimal impact on the beautiful nature that surrounds us. So, besides turning all food leftovers into compost, we avoid the use of packaging and destine our non-organic residues to waste recycling.

Oh, before we forget: we are ready to accommodate to your nutritional intolerances and allergies. And, throughout the menu, you will find indications of dishes that are vegetarian, vegan, gluten and lactose free, as well as sugar free desserts. Our staff is at your disposal should you have any questions.

Thanks for sharing this experience with us!
